TECHNICAL SKILLS

FRONTEND DEVELOPMENT

- React, TypeScript, JavaScript (ES6+)
- HTML5 & CSS3
- Tailwind, MUI, Mantine
- Storybook
- Testing: React Testing Library, Vitest, Cypress
- State management (Redux, React Query)

ENGINEERING & PLATFORM

- Git, Github, Bitbucket
- CI/CD (GitHub Actions, Bamboo)
- Node.js
- Monitoring & incident management
- REST API integration

DATA / BACKEND:

- SQL
- Java, Kotlin (basic)
- Data Analysis & Visualization (Looker Studio)
- Airflow (DAGs), ETL / data pipelines
- Docker, Podman, Insomnia
- Google Cloud Platform (BigQuery, GCS, Composer/Airflow)

TOOLS & COLLABORATION

- Jira
- Figma (basic)
- Technical documentation & onboarding

EDUCATION

ADAM MICKIEWICZ UNIVERSITY IN POZNAŃ
HISTORY 2008–2014

LANGUAGES

- Polish – Native
- English – C1
- Spanish – A1/A2

HOBBY

- Cycling & sailing
- Miniature Painting
- Board and video games

GALLUP STRENGTHS (TOP 5)

Activator • Developer • Individualization • Empathy • Woo

ABOUT ME

Front-end Software Engineer with 3+ years of experience building and maintaining production-ready React & TypeScript applications used daily by hundreds of users.

Strong background in reliability engineering, data processing and cloud infrastructure.

I actively develop side projects to deepen my frontend skills and engineering maturity.

WORK EXPERIENCE

FRONT-END SOFTWARE ENGINEER I

Allegro.pl sp. z o.o., Poznań

2022-03 – NOW

- Developed user-facing features in React + TypeScript (CMS, marketplace tools).
- Architected accessible and responsive UIs in alignment with the internal design system and Storybook standards
- Ensured high software quality by maintaining comprehensive test suites with React Testing Library, Vitest, and Cypress
- Streamlined engineering processes by optimizing GitHub Actions CI/CD pipelines, including PR validation and quality checks.
- Occasionally implemented backend changes (Node.js / Java / Kotlin) to support frontend features.
- Collaborated closely with product, design and backend teams to deliver and refine features aligned with business requirements.
- Participated in on-call rotations, debugging production issues and supporting hotfix deployments under time pressure.

SITE RELIABILITY SPECIALIST

Allegro.pl sp. z o.o., Poznań

2019-04 – 2022-03

- Led capacity planning and performance forecasting for high-traffic services, ensuring stability during peak seasons (e.g., Black Week).
- Automated complex data workflows using Python and Airflow, reducing manual reporting effort and improving data accuracy for management
- Designed and deployed Looker Studio dashboards to monitor SLAs, Apdex, and incident metrics, driving data-informed infrastructure decisions.

PARTNER SUPPORT SPECIALIST

Arvato Bertelsmann/Allegro.pl sp. z o.o., Poznań

2015-06 – 2019-03

- Provided technical and operational support for thousands of marketplace merchants (API integrations, platform compatibility, account configuration).
- Diagnosed issues related to platform integrations and infrastructure and cooperated with engineering teams to resolve incidents.
- Delivered high-quality customer experience and support for thousands of merchants.

I agree to the processing of personal data provided in this document for realising this and the future recruitment process pursuant to the Personal Data Protection Act of 10 May 2018 (Journal of Laws 2018, item 1000) and in agreement with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation).
